0 of 0 people found the following review helpful. Five StarsBy Kenneth rakentineGood little book0 of 0 people found the following review helpful. An excellent how to bookBy scorioAn excellent on how to create your own equipment to make great beer with thing that you probably have around the house, and is much more economical.7 of 7 people found the following review helpful. Good but there are better purchasesBy Jesse McvaneyThis guide was pretty good, with simple illustrations and brief overviews of how to build equipment for brewing.I purchased Brew Ware a week later and found it had the same projects plus about 40 others, including hop growing and it was only \$6 more. I wish I had bought the latter one from the beginning and save some cash.
