Andy Radford : Building Natural Stone Garden Features before purchasing it in order to gage whether or not it would be worth my time, and all praised Building Natural Stone Garden Features:

Radford explains and illustrates how to make simple, attractive additions to your garden or any recreational space. This book offers straightforward, sound advice and contains everything you need to know to create both functional and decorative features.

About the Author Andy Radford has had many years' experience of construction work in garden or rural settings. Having trained and worked for the Peak District National Park Authority, he then became a self-employed countryside contractor and advisor. Since 1999 he has written several books including A Guide to Dry Stone Walling and Building

Countryside Paths and Tracks [published by Crowood] and writes regularly for Country Smallholding magazine.
Resident - North Wales
