F. Hall : Building Services and Equipment: Volume 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Building Services and Equipment: Volume 3:

0 of 1 people found the following review helpful. Best SellerBy Leung Chun MingWith quick service, I received the book in short period. That was very good and I appreciated their wounderful services.

A widely acclaimed trilogy that has become established as the leading work in this field. As well as taking account of current Building Regulations, Codes of Practice and recent technological advances. Special attention has been paid to

the reduction of fuel costs and environmental factors. This volume covers the essential design calculations for pipe-sizing, drainage, electrical installations, thermal problems, ventilation and air conditioning, gas installations, lighting and solar heating.
