Fred Hall, Roger Greeno : Building Services Handbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building Services Handbook:

0 of 0 people found the following review helpful. Five Stars By Anita Hasli This is a good reference for students doing undergraduate degree in quantity survey. 0 of 0 people found the following review helpful. Five Stars By Jennifer Dillion-Sirjuegreat

This eighth edition of Hall and Greeno's leading textbook has been reviewed and updated in relation to the latest building and water regulations, new technology, and new legislation, and even more design calculations have been added. In addition, topics such as: alternative sources of natural energy, solar, ground source, heat pumps, renewable

energy sources, geothermal methods, and wind power, are now covered. Building Services Handbook summarises the application of all common elements of building services practice, technique and procedure, to provide an essential information resource for students as well as practitioners working in building services, building management and the facilities administration and maintenance sectors of the construction industry. Information is presented in the highly illustrated and accessible style of the best-selling companion title Building Construction Handbook. THE comprehensive reference for all construction and building services students, Building Services Handbook is ideal for a wide range of courses including NVQ and BTEC National through Higher National Certificate and Diploma to Foundation and three-year Degree level. The clear illustrations and complementary references to industry Standards combine essential guidance with a resource base for further reading and development of specific topics.

About the Author Fred Hall had a varied career in the building services industry before lecturing on craft, technician and professional examination courses at Guildford College. His numerous books on the subject have assisted countless students to successfully pursue their qualification objectives. Roger Greeno is a well-known author of construction texts. He has extensive practical and consultancy experience in the industry, in addition to lecturing at several colleges of further and higher education, and the University of Portsmouth. He has also examined for City Guilds, Edexcel, the Chartered Institute of Building and the University of Reading.
