E Brunet : Building Your Own Private Beach (The First Year - Season I) before purchasing it in order to gage whether or not it would be worth my time, and all praised Building Your Own Private Beach (The First Year - Season I):

1 of 1 people found the following review helpful. Not what we were hoping for - more of a family journey in their project.By ShipwreckWriterOrdered three books on this subject. Very happy with other two. This one cost twice what another helpful book cost. This is really nothing more than a thick pamphlet that documents a family's project.About 20 of the 48 pages are photos with descriptions. Tried to send back, but did not find a "I just did not like it" category.

Ordered "How to Build A Natural Swimming Pool" it is an awesome text - and very thick for a few dollars more. Ordered "Waterfalls, Fountains, Pools Streams" for half the price of this book it is maybe three times the size and information (if not four). This book gave few details reminds me of the "Cook Books" for kids that go like this: "Pour cake mix into bowl. Add eggs and milk and mix. In about half an hour, you will have a delicious cake!" We were in essence hoping to purchase books with specific information. This is more of one family's journey in building their pond. My bad for not paying more attention when ordering. Do not mean to slam the author as it's a nice job in documenting their journey. Thank you. 3 of 3 people found the following review helpful. Great read for those considering a natural swimming pool project. By Christopher Lavigne This is a great resource if you are considering a natural swimming pool project. The money, time, and frustration that you save by reading this book is well worth the few dollars that it costs. 1 of 1 people found the following review helpful. Four Stars By Mr. Medina Very interesting till now.

A Do It Yourself swimming pond project working toward clear water visibility. Illustrates the trials, efforts, and perspectives of the project in hopes to inspire others on how they too might take the journey and accomplish their own personalized private beach swimming pond haven, with the budget of a decent in-ground swimming pool.
