The book is a large hardback edition with colorful photographs. The copyright is 2001 but it reflects homes that you could walk into today. It is an overview of different types of cabins in different parts of the country. The pictures are large and the text is descriptive. I am truly enjoying it, especially my purchase price, which was minimal.4 of 4 people found the following review helpful. Love this nice coffee table book.By Karen L. BoswellWe built our own house of logs from our property. This is the best book I have seen anywhere for getting decorating ideas in many different styles. I love it! It is sure to have something you will like. My thanks to the author.0 of 0 people found the following review helpful. Beautiful Large BookBy PamBeautiful large coffee table book. Love it!
