Carlos Herrera : Carlos Herrera: The Architecture of Lines, Light, and Luxury before purchasing it in order to gage whether or not it would be worth my time, and all praised Carlos Herrera: The Architecture of Lines, Light, and Luxury:

A lavish volume on the work of Mexican architect Carlos Herrera, who is known for beautifully sited houses that dissolve boundaries between indoors and outdoors. This beautiful monograph is the first book in English on Carlos Herrera, a prolific architect with built work throughout Mexico and Central America. Known for his modernist sensibilities and organic use of nature, Herrera is considered an important member of the Mexican architectural tradition. Here exquisite photographs of Herrerass work, sited in spectacular natural settings, are paired with original writings. Covering the wide range of Herrerass work to date, this volume is sure to appeal to those interested in such

greats of Mexican Modernism as Ricardo Legorreta and Luis Barragn.

"From club houses, beach houses and city residences to theatres, offices and museums, the gorgeous photography and thoughtful text elegantly capture Herrera's ability to navigate the aesthetics of contemporary visual abundance. . . This volume is a must-have for practitioners and admirers of contemporary architecture."-i-D MAGAZINE
About the Author
Carlos Herrera is an architect and the founder and principal of CH Arquitectos in Mexico City. Richard Rogers is an acclaimed architect working in England who won the Pritzker Prize in 2007. Allan Fis is a Mexican photographer who has managed to bridge the gap between the fashion and architectural worlds. This is his third book.
