The "new" followup version which shows the homes "current" status color photos via 2015/16 period also is a good one for comparison to the original "interior/exterior" and how they had stayed same or changed/alterd. 0 of 0 people found the following review helpful. Since the popular Museum of Contemporary Art exhibit of 1989, Blueprint for Modern Living, much attention has been paid to the pioneering work done by the architects of the Case Study Program. Sponsored by John Entenza's Art Architecture Magazine, the Case Study Houses program brought new thinking, techniques, and materials to post-war California house building. Contains the work of Charles Eames, Eero Saarinen, Craig Ellwood, Pierre Koenig, Richard Neutra, William Wurster, and others.
