**Tom Ralston : Cast-In-Place Concrete Countertops: A Guide for Craftsmen** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cast-In-Place Concrete Countertops: A Guide for Craftsmen:

0 of 0 people found the following review helpful. The best book of it's kind written by an actual concrete guy. By JP Henricksen This book is the best. As a general contractor, I now have a good understanding and what to expect in a concrete countertop. Ralston himself is a concrete contractor, and that is what I like most about this book: it is written by a guy that actually does this type of work. 4 of 4 people found the following review helpful. Precast Cast in place By NSEven in the introduction the author admits a pre-cast in melamine will create better results than a cast in place. Don't bother with this if you want professional results. No DIYer will be able to trowel nearly as smoothly as a precast. Cheng or Buddy Rhodes books address this style. 0 of 2 people found the following review helpful. GREAT By Deuel Newton On TIME! GREAT PRODUCT

Concrete countertops are on the cutting edge of today's interior design and outdoor kitchen trends. Kitchen designers, contractors, architects, and homeowners alike can use this book to learn the detailed process of creating amazing concrete countertops. Here Ralston shows how to plan, execute, and complete a concrete countertop cast-in-place for ease and convenience. This book is a great inspiration for anyone interested in concrete countertop fabrication. Beautiful images of kitchens both indoors and out will inspire you, and step-by-step imagery will walk you through the process of creation.

**About the Author** Tom Ralston is a regular speaker at the World of Concrete conference and packs conference rooms and contractors yards across the country when he signs on to speak about his experience in the world of high-end concrete work. He is one of the nation's leading innovators in concrete countertop installation, and in this book he shares his years of experience both in fabricating the countertops and selling high-end jobs.
