Love this book By debsassykins I also own the books 1000 chairs ,but felt like that covered way too many of the ones I was personally not interested in. This book is fun to flip through read the small tid bits on some of the more pop art area chairs and such. 0 of 0 people found the following review helpful. GASP! By Danielle Ok, so maybe im biased because I really do love Taschen and I really do love chairs... combine these two together and I am a very happy woman :) 6 of 9 people found the following review helpful. A classic! By Kristina Steinbchel A sweet little chair book I bought from the Tate Modern and really enjoyed it. Most of the chairs from known architects... A book for your office table.

This volume presents a selection of chairs from the Taschen title "1000 Chairs" in pocket book format. The ubiquitous chair - you're probably sitting in one right now, have a look - is shown in all its shapes and forms and glory.
