ARTPOWER INTERNATIONAL : Cheers!: Wine Cellar Design II before purchasing it in order to gage whether or not it would be worth my time, and all praised Cheers!: Wine Cellar Design II:

0 of 0 people found the following review helpful. enjoyed it thouroughlyBy Studio Sev7enProvided multiple inside views of different wine cellars, enjoyed it thouroughly. Though I enjoyed Cheers very much, I enjoyed Cheers II even more as it was an extension of the original and offered insight in providing innovative ideas to incorporarte into my current wine cellar design. The design photos from existing wine cellars were a tremendous asset. If you're designing a cellar, Cheers is a must review.

This thorough and inspirational book presents some of the finest wine cellars in the world.
