Ken Moore : Chicken Coop Step By Step Guide for Beginners before purchasing it in order to gage whether or not it would be worth my time, and all praised Chicken Coop Step By Step Guide for Beginners:

1 of 1 people found the following review helpful. Giving young kids opportunitiesBy Susan JohnstonThis book is full of handy hints that will help you build your own chicken coop! Some of my favorites from the book include:- "Go solemnly by your chicken coop plans. Start with the bottom foundation and eventually move on up."- "Before you start poking in wood and sticks into the soil in your yard, take a good hard look at the ground first, notice the areas that are stiff and dry. If you can count them up chicken accompany yourself with a load of water. Dampen the dry ground and chicken use a crowbar to poke a hole into this"- "...you need to be careful when it comes to providing enough ventilation while making sure the chickens are safe inside the coop. However, you should not worry about 'breezing' it too much, especially in winters, unless you want to freeze their feathers off. The thing is that chickens can live with the cold up until it gets really drafty."I am so happy to see that they are giving elementary aged children the chance to

publish their own books! It is so important for us to put our faith in the future generations and nurture their creativity. I also love the stunning black and white Microsoft clip art illustrations, they really spice up the read! 0 of 0 people found the following review helpful. Three Stars By James W. Marvel Not enough info on coop sizes. 0 of 0 people found the following review helpful. Look elsewhere for info! By curtis templeton The best feature of this book is the front cover picture. Had looked around the web for info and it is much better than this book. Black illustrations, but no ideas that really point you in the direction of coop design or ideas. Took me 15 minutes to breeze through this book.

What Will You Find In This Book? Since having your own chicken coop in your yard is a step towards being self-sufficient, then why not build your own chicken coop?
