Sunshine on a cloudy dayBy CustomerThis is the first Chicken Soup book I've bought for my Kindle. I like that I can read a short uplifting story when I just have a few minutes to read. As an avid gardener, living in the Northwest, often we spend more time reading about and planning our gardens, than actually enjoying them. The stories in this book are a great way to spend time in the garden, while the snow is still falling. Enjoy.

For beginning gardeners and veteran green-thumbs-this uplifting collection of stories is filled with what every gardener knows-gardens fill lives with a special richness because they are a living reminder of the beauty in the world. Chicken Soup for the Gardener's Soul celebrates all the magic of gardening-the feeling of satisfaction that comes from creating something from nothing; the physical and spiritual renewal the earth provides; and the special moments shared with friends and family only nature can bestow. Written by hobbyists and celebrity gardeners, the stories relate the joys and challenges of gardening, with chapters on Blossoming Friendships, The Family Tree, Love in Bloom, The Seasons of Life, Overcoming Obstacles and Potpourri.
