Nice book to add to your garden library By Gisella Patharkar I own already a small library on gardening subjects and own several books by Roger Phillips. I love all his books and although this is a much smaller booklet on climbers, it has the

same thoroughness and charm.

The authors have compiled eight small format books that cover the most popular subjects for gardeners in the Pan Plant Chooser Series. The series is aimed at the less-than-expert gardener who may be buying plants for the first time.
