What a perfect name for this book - when I ended it--I felt like I had had a glass of wine and a great dinner by the water with good friends. What could be better? This book has ALL different types of beach houses to suit every taste. (which makes sense - not everything is going to appeal to all types. Potato, pototo.) I would say four or five of them had me GASPING at the beautiful pictures, and the magical nature scenes, and a couple were like, "That's just okay." But all of the stories made you feel good. And yes.....happy! Now I'm really inspired for my own (future) beach house!!!! 7 of 8 people found the following review helpful. So good!! Everything coastal and more! A must have for anyone who loves living near the water! By Gov875 Beach House Happy couldn't be more aptly named! The photos are beautiful and the stories are interesting and engaging. There's a reason people drawn to living by the water. If you don't understand and haven't felt that way before please buy this book and give it a read. Or if you must,

stop by my place and I'll lend you it. Yes, it's that important. I'll be buying a few more for friends and family and I know they'll love it just as much as I do! 1 of 1 people found the following review helpful. Love, love
