Nice bookBy PatSGreat coffee table book, guest frequently pick up to thumb through. I particularly wanted to see the color schemes of beach living since we've always been in suburban or mountain setting. From preference of earth tones to the vivid and pastels of the opposite end of the color chart it was a help.

Covering homes from as far apart as the Bahamas and Denmark, the book begins by looking at The Elements that go to make up the whole, including color and texture, materials, furniture, fabrics, accessories, and display. The second

part of the book, *The Spaces*, takes a tour through the home room by room, from Living Spaces and Cooking and Eating Spaces to Bedrooms, Bathrooms, and Outdoor Spaces, capturing the distinctive interior style that has evolved from living beside the sea.

**About the Author** Sally Hayden is an experienced stylist who has worked on a wide range of publications, in particular *Vogue Living* (Australia) and *Eve*. Alice Whately, a former decor editor at *Elle*, is the author of *Peaceful Spaces* (Ryland Peters Small). Both authors live in west London.
