**Redwood Kardon, Douglas Hansen, Michael Casey : Code Check: An Illustrated Guide to Building a Safe House** before purchasing it in order to gage whether or not it would be worth my time, and all praised Code Check: An Illustrated Guide to Building a Safe House:

0 of 0 people found the following review helpful. OKBy Lawrence LarosaThis booklet provides a fine checklist for reviewing your own designs or doing home inspections. This checklist is not intended to be a replacement for your building code books. You still need to have a firm understanding of the codes. Code Check does serve as good 'tickler' on thoses codes that you do not refer to regularly and helps make sure that you don't overlook something.0 of 0 people found the following review helpful. Best decision I ever madeBy ed dixonI am a builder but not so on top of code that I do not need to reference. This is a very concise source that has most of what you need for day to day building. Should have had this from day one. First saw it being referenced by my building inspector and a light went on. If a building inspector is using it, shouldn't I be using it? Best decision I ever made.1 of 1 people found the following review helpful. The most useful code information all at your fingertipsBy Chip BreakerThis series is probably the

best--it lives in the job site bag...it is well-organized with good graphic organization, up-to-date, and a fairly comprehensive code reference; naturally, the content isn't completely exhaustive, but it does an excellent job of presenting the most useful code compliance information all in one convenient package.

Now you can gain access to the most up-to-date changes in the 2009 International Residential Code with the newly revised sixth edition of *Code Check: An Illustrated Guide to Building a Safe House*. For builders, remodelers, home inspectors, and building inspectors, this essential reference delivers accurate information on current residential building codes for foundations, framing, plumbing, and wiring, as well as exterior and interior walls, fireplaces, and chimneys. By highlighting the central safety principles found in U.S. building codes - in a user-friendly format - this valuable tool gives you all the facts you need to avoid common code violations. So you can get every job done right the first time - without expensive, time-consuming callbacks.

About the Author Redwood Kardon is a former building inspector for Oakland, CA., and is the leading professional lecturer nationwide on building codes. He also owns and maintains "codecheck.com," a website devoted to promoting the Code Check manual. Coauthors Douglas Hansen and Michael Casey have 25 and 18 years of field experience, respectively. All three authors teach seminars for inspectors around the country, using the "Code Check" series as their primary material. Paddy Morrissey was the senior illustrator for CornerHardware.com and has been the sole illustrator for the "Code Check" series. Skip Walker is a certified residential combination inspector, who has a particular interest in smoke alarm performance issues and deck safety. Paddy Morrissey was senior illustrator for CornerHardware.com. All three live in the San Francisco Bay area. Douglas Hansen lives in Palo Alto, CA. Michael Casey was born in 1947 in Lowell, Massachusetts. He was drafted into the U.S. Army and served as a military policeman in Vietnam. Among his books of poems are *MILLRAT* (Adastra Press, 1999), *The Million Dollar Hole* (Orchises, 2001), and *Obscenities*, which was chosen by Stanley Kunitz as the Yale Younger Poet Award for 1972 and reprinted by Carnegie Mellon University Press in 2002. His most recent book is *CHECK POINTS* (Adastra Press, 2011).
