Donnie Smith : Collision Blast Basic Auto Body and Paint Training before purchasing it in order to gauge whether or not it would be worth my time, and all praised Collision Blast Basic Auto Body and Paint Training:

3 of 3 people found the following review helpful. Collision Blast Basic Auto Body and Paint Training By AutoAE86 First of all I want to say GREAT book! If you don't have the time or the funds to take an auto body class but

want to learn about it in your free time then buy this book. It provides you with all the necessary training and really explains the whole process step-by-step from start to finish. I usually never write reviews but after reading this book and learning so much at the online training modules I was really amazed on how much information Donnie has compiled. I know there are other auto body e-training products out there that you can buy for \$200 or more but I have to say this has got to be the best \$40 I have ever spent...2 of 3 people found the following review helpful. Great book with super web support trainingBy XThis book covers all the new tools and products to repair and paint a car. I think Donnie Smith has given a great service to the person that wants to learn body and paint repair on their car.

This book includes access to our web enhanced training website. Quizzes and certificates of completion available on the website to assess your progress. By reading this book you will learn from years of experience, but more importantly, you will eliminate many of the common mistakes that I see made as an instructor and mistakes that I have made along the way. I have also produced and included many of my free training videos and I have searched the internet for additional relevant videos and other resources that I believe will help you learn how to repair and paint your car or reach whatever your training goal is. You will also gain access to my web enhanced course that will help you excel through your training process. Module 1 - Safety Module 2 - Vehicle History Module 3 - Metal Straightening Module 4 - Body Fillers: Fiberglass Fillers Module 5 - Welding Module 6 - Plastic Repair Module 7 - Preparation: Sanding, Masking, Primer Module 8 - Paint: Spray Guns, Module 9 - Paint: Sealer, Base Coat, Clear Coat Module 10 - Detailing Module 11 - Paint Defects and Other Considerations Resources Resources For Modules (Additional Information) Industry Resources (For Technicians, Managers and Business Owners) Instructor Resources (For Instructors) Career (Career Information and Industry Associations) Estimating Products (Supplies, Tools, Other) DIY Mechanical (For The Do It Yourself Enthusiast) Student Resources Changing The Perception Of AutoBody 101 and More!

About the AuthorMy passion for working on cars started when I was a kid. I helped my dad and older brother work on cars as a hobby. In high school I enrolled in auto shop and painted my first car. After stepping back and seeing the finished product, I knew that I was hooked for life. After graduating high school I attended the collision repair program at WyoTech. Since then I have worked for body shops and a body tech, paint tech, and an estimator. I have managed and owned a body shop. For the past 7 years I have been teaching collision repair for an NATEF Accredited school that is also a member of the I-CAR Industry Training Alliance. I stay up-to-date with the collision repair industry by attending training on a continuing basis, I am a member of ASA and the active in the collision repair industry with my website <http://CollisionBlast.com> If you are not already a member of our network, I encourage you to join us. There you will receive additional training, news and networking with other in the collision repair industry.
